Industry**

# Academy 2020

**Bianchi Vending**

**Ad hoc training** can be planned directly with Sales and Technical referents (Italian or English) and they can also be organized at the customer's site.

## List of trainings held:

- **Bianchi Vending** – It's related to the Bianchi Vending model range. The training is designed to provide all information related to management, machine programming and maintenance routine .
- **Hardware / Software** – It's divided into two parts: the first dedicated to the introduction of machine-installed electronics; the second dedicated to the WinShell software used to program the Vending Machine.
- **GUI Configuration** – It's related to the configuration and customization of the Graphic User Interface of the VM(Touch version).
- **Brasilia** – training organized on request and can be held at one of our offices in Binasco (MI), Genoa (GE) or Verdellino Zingonia (BG); eventually at the customer's site.
